

# LEBA Speciality Papers – Content Reference Document

This document is provided as a factual and tonal reference for AI-assisted website generation (Google Antigravity). The purpose is to ensure content accuracy, professional language, and international B2B positioning without exaggeration or invented claims.

## Company Overview

LEBA Speciality Papers is a manufacturing-focused supplier of speciality paper and print-related materials serving commercial printing, packaging, industrial, textile, and premium wedding markets. The company operates with a product-led and application-driven approach, prioritizing material consistency, print compatibility, and reliable supply.

## Core Product Categories

- Digital printing papers (various finishes and GSM ranges)
- Texture and specialty papers for premium and decorative applications
- Sticker and label materials including gloss, matte, and synthetic variants
- NCR / carbonless papers for commercial and office use
- Synthetic papers and films for durability-focused applications
- Boards, kraft materials, and related packaging substrates
- Printing consumables and supporting materials where applicable

## Primary Applications Served

- Commercial and offset printing
- Digital printing and short-run production
- Wedding cards, invitations, and premium stationery
- Labels, stickers, and packaging solutions
- Textile and screen printing
- Industrial and office documentation use

## Capabilities & Positioning

LEBA's positioning emphasizes manufacturing capability, material selection expertise, and suitability for bulk and repeat production. Communication should focus on reliability, process consistency, and application compatibility rather than promotional claims.

## Quality & Communication Guidelines

- Avoid exaggerated or unverifiable claims
- Do not invent certifications or compliance statements
- Use factual, conservative language suitable for international buyers
- Emphasize consistency, material behavior, and application suitability
- Maintain a calm, professional, export-ready tone

This document should be treated as a grounding reference to ensure all generated website content remains accurate, restrained, and aligned with LEBA Speciality Papers' real-world offerings.
